Blend Mustard

Brassica spp.

High Mowing Mild: This popular blend contains over a dozen different mild flavored mustards and other brassica greens including kale, Mizuna, Tat Soi and Pac Choi. Diverse leaf shape, color, and texture.

Planting Tips: Direct seed as soon as soil can be worked. Sow every three weeks into the fall for a continuous harvest. Baby leaf: seed 60 seeds/ft in 2" bands with 3/4" between bands. A great cut-and-come again crop when harvested above the growing tip. Use floating row cover to ward off insects.

• Store seeds in a cool, dry place •
