0397A - Clemson Spineless (*Abelmoschus esculentus*)

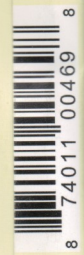

Introduced by Clemson University; AAS winner in 1939. Still the most popular open-pollinated variety on the market. Vigorous plants grow 3-5' tall. Exceptionally uniform, deep green ribbed and spineless pods are best harvested when 3" long. Excellent quality. 50-64 days.

Green Thumb Tip

Sow seeds outdoors when the soil has warmed. Tolerant of heat and drought, but not of cold. Keep well picked for higher yields.
