Cabbage

Golden Acre Cabbage
open-pollinated | 62 days
1/32 ounce | sows - 20 ft | Item: 2298

Cabbage
Brassica oleracea

Golden Acre: Super early, adorable green heads on compact plants; perfect for smaller households! Round and solid, with delicate but crunchy texture and sweet, spicy flavor with buttery undertones when cooked. Few outer wrapper leaves; short harvest window.

Planting Tips: Cabbage is a hardy biennial grown as an annual. It performs best in cool conditions. Direct seed after danger of hard frost has passed or start transplants 4-6 weeks before planting date. Cabbage is mature when the tight outer leaf of the head begins to fold back on itself.

• Store seeds in a cool, dry place •

---

Cabbage

Red Express

Vibrant, red leaves are crunchy and sweet. Compact, round heads grow to 3-4 lbs.

SOW in North in early spring for first crop, again in midsummer for fall crop. In South, sow in the fall. Sow about 8" apart in rows 24" apart and cover with 1/4" of fine soil. Firm lightly and keep evenly moist. Seedlings emerge in 10-21 days.

CABBAGE
Red Kalibos

0097 - Red Kalibos (Brassica oleracea)
This beautiful Eastern European cabbage variety bears elongated, red heads framed by greenish-red leaves. The sweet-flavored leaves of these dense 2-3 pound heads are perfect for shredding for slaws and salads, or for used in pickling. A good keeper that adds an ornamental quality to the vegetable garden. 80 days from transplant.

Instructions - Start seeds indoors and sow seeds 1/4" deep. Plant outdoors just before the last frost. Make sure cabbage has a regular supply of water.
