Turnip
Brassica rapa

Des Vertus Marteau: Sweet, mild, crisp flavor and unique shape excellent for salads and crudites. Creamy cylindrical roots were a standout in our fresh market turnip trials. The name translates poetically to "Hammer of Virtue." Dates back to 1800s Vertus, a city in France.

Planting Tips: Salad turnips are a biennial grown as an annual crop. Grows best in rich, loose soils with even moisture. Direct seed as soon as soil can be worked. Flavor is sweetest after a few light frosts.
