We Are West!!
To the Cherry Hill High School West Educational Community - Especially the Graduating Class of 2008!

Whether the memories contained in the 2008 Edition of Rampant are from your freshman, sophomore, junior, or senior year they will be cherished for years into the future. When you look at yourself and your classmates through these pages, memories and emotions will come flooding back as you recall conversations and looks, and the inside stories that go along with each image. This yearbook will forever be the key that will bring you home.

For, it is within these pages that you will find who we are as a community, as a school. We are athletes, scholars, thespians, singers, musicians, artists, linguists, friends, and relatives, companions, young, impressionable, driven, and successful. We are family. We will forever be bound by our connection to Cherry Hill High School West. We are more than two thousand people who come together on a daily basis, with thousands of family members supporting our community. We have laughed together, we have cried together, and most importantly, our lives have changed together.

Cherish this book, remember the memories - remember the foundation you have established at West. If you are graduating from West this year, remember that you join an illustrious and accomplished group of thousands of other alumni represent us as well as you endeavor into the future, returning often to give back our community. If you are fortunate enough to be returning for another year at West, enjoy your summer read and reflect, dream and laugh, prepare for your return in September.

I look forward to seeing you all soon!

Amanda Malik and Andrew Sturmer serve as West's 2007-2008 student representatives to the Board of Education. They attend all monthly Board of Education meetings where they represent the best interests of the West student community. Perhaps the most influential "government" post a senior can hold, this job provides student input on educational policy and practice to the Board members and Central Administration. The Board has welcomed this student participation since April, 1993.

**Amanda Malik**

Before serving as the student representative to the Board of Education, I was unaware of the central role that the Board of Education plays in student life. However, this year, I was able to learn about the decisions the Board is responsible for making and how they affect the lives of students in our district. Not only did I speak and listen, but I also became a contributing member of the Board. Sometimes members asked for my opinion on student issues and I was able to speak for my fellow students on what I thought was best for all of us. My thoughts influenced the members of the Board and aided them in making wise decisions. Overall, it has been an enlightening experience and I am glad I was able to serve such an integral role.

**Andrew Sturmer**

I greatly enjoyed my time representing West to the Board of Education. Anyone who attends meetings on a regular basis realizes that this is a body established on a foundation of respect, integrity, and good intentions. Each one of these elected officials is a parent who is concerned with the success of every student in the district. The Board consistently looks to compromise and preventily endorse to provide the best possible education. They maintain a policy of courtesy and respect, even when dealing with extremely emotional issues. These values are role models of character education and deserve a tremendous amount of respect.

Order of the Lion

Order of the lion represents the top 6 students in the class of 2008 as of the end of the first semester. Students are placed in alphabetical order.

Christina Badaracco

It has been such an honor to share the past four years with all of you. I am so glad to have had the opportunity to know as many of you as I did, and thank you all for being so kind, caring, and generous. High school has been a huge challenge for all of us, but I know we have all worked hard and taken advantage of every opportunity to be successful. Our class has made many amazing accomplishments—in music competitions, on national exams, and on nationally or state recognized sports teams—and I am proud to be a member of West's class of 2008. I know you are all such wonderful people, and you will all find great success in college and beyond. You will certainly keep a special place in my heart.

Anastasia Pastino

Plato once wrote, "The direction in which education starts a man will determine his future in life." These past four years of my life have simultaneously been the most difficult and the most rewarding. All of the time I have spent, whether on homework or extracurricular activities, has contributed to both my knowledge and my work ethic. The academics at West have expanded my mind but, more importantly, the West community has helped me grow as a person. I know that because West has provided its students with such a well rounded experience, we will all achieve great things.

Mital Patel

At first, it seemed very difficult for me to personalize my high school experience when moving throughout the building from course to course, from scheduled time to scheduled time. Basically, I had my place in the school in a metal locker located in the hallway. However, my experience at West made me realize that it is not I who can define myself, but rather it is those around me that identify who I am. Reflecting on my past four years here makes me realize that in the background of all the academic learning was occurring an even more important development: the forming of relationships. As students, we created many strong bonds with one another, some of which cannot be broken in a lifetime. After all, these connections will serve as the foundations of our success in the future.

Jeremy Silver

Jamie indubitably enjoyed my experiences at West. It was the best three years I have spent in any school. I have made friends and acquaintances, and am able to conquer the beasts of high school, viz., homework, DBQ's, and Mr. McDonald's Latin tests. The social circle was a great medium through which I made a multitude of friends, acquaintances, and cohorts. I relished performing on stage with my fellow classmates in the annual One Act Play Festival. I also had a great deal of fun going brain-to-brain against other math and science enthusiasts in the Math and Science Times. West has given me a firm foundation whereupon I hope to succeed in my future endeavors, whatever they may be. Good luck to the Class of 08 and fare ye all well.

Andrew Sturner

The best part of attending Cherry Hill West is becoming a member of the West Community. The past four years have held numerous joys, but also many sorrows. We laugh as a family at silly people imitating turkeys; we cry as a family when a tragedy strikes one of our members. We cheer on our family at soccer games and swim meets; we offer words of encouragement when our family loses a close match. While we might not play all of the notes in tune or earn an A on every exam, the phrases behind everything that we do is the benefit of our community. West is undeniably best. Congratulations and Good Luck to the Class of 2008!

Robert Wardlow

The time that I have spent at Cherry Hill West is certainly a part of my life that I will never forget. At times it seemed as if I could not wait to leave and move on to college, but I know that once I am gone I will look back on my time here and have many great memories to reminisce about. It has been said that high school and college should be some of the best years of ones life. As far as my experiences go, I can say that at least the first part of this statement is true. I wish all the best of luck to all the members of the Class of 2008 in whatever he or she chooses to pursue after graduation.

At the start or at the end. The journey through life is not yet over. Nor did it just begin. A young adolescent. Joys have been experienced and battles on the field have been won. With a band of brothers, my time is almost up with them. How could four years bring something that a lifetime could not? This is the new American pastime, and I'm all for it. Friends were found and lost, but that wasn't up to me. Never in the shadows. Never in the spotlight. Patiently waiting. Joyous times were had by all. Younger than young, yet old to some. Dreams were kept. Oh yes, I had mine, I still do. Some things never change. While schools were changed, children changed, for better or worse. Changing was easier then, than now. An open mold for anyone to shape. Memories don't recall these times, but those memories that are remembered are great ones. Parents may take videos and pictures galore. Been to places very fun, with family and friends. The simplest time in life. Where everything was catered to our every whim. Reflecting upon these marvelous things. Seeing where the journey started and continues. For we hope it does not end. As we look forward for more to come. We can only find that nothing really changes, from start to end.
