Questions & Answers

Q: What was your favorite memory on the team so far?
A: Having a party on the bus after we won a meet. Everyone had glow sticks, it was a lot of fun.
Jenny Malik

Q: What do you like most about the team/coach?
A: The team is so close, we are like each other's second family. Coach Sweeten is a great coach, he knows how to get us pumped up for each meet.
Emily Bart

Q: What is your favorite team quote/motto?
A: "Hard work begins when talent doesn't work hard." This is my favorite quote because it gives no excuse to be lazy and shows how each athlete has to work hard 100% of the time.
Jussi Conte

Q: Who was your toughest competitor this year?
A: East was definitely our toughest competitor this year, but I felt that we as a team swam our best.

To the Cherry Hill High School West Educational Community Especially the Graduating Class of 2009!

This yearbook will forever be the key that will bring you home to our hallways and to your experiences as a student at West. As an educational community and as a nation, we have borne witness to historical events that will be discussed for generations to come. Always remember, that it was as a student at West that you experienced the changes in the world. Most importantly, this book reveals our collective history, it tells the story of who we are.

It is within these pages that you will find who we are as a community, as a school. We are athletes, scholars, thespians, singers, musicians, artists, linguists, friends, and relatives, companions, young, impressionable, driven, and successful. We are family. We will forever be bound by our connection to Cherry Hill High School West. We have laughed together, we have cried together, and most importantly, our lives have changed together.

Remember the memories of your years at West - remember the foundation you have established. If you are graduating from West this year, remember that you join an illustrious and accomplished group of thousands of other alumni represent us well as you endeavor into the future, returning often to give back our community. It is in you that we will see the next great changes in our world, the next great accomplishments and successes. If you are fortunate enough to be returning for another year at West, enjoy your summer read and reflect, dream and laugh, prepare for your return in September.

I look forward to seeing you all soon! 
Fondly,

Joseph N. Meloche
Principal

"Remember the memories of your years at West - remember the foundation you have established. Julia Bilovol and Cameron Rotblat

Perhaps the most influential "government" post a senior can hold, this job provides student input on educational policy and practice to the board members and central administration. The board has welcomed this student participation since April, 1993.

It is unbelievable how quickly four years have passed by. Though I am excited and anxious to start a new chapter in my life, it saddens me to leave behind such a memorable place as West. High school was at times most challenging, due to nerve-racking DBQs, a persistent lack of sleep, and more. Still, years from now when I reflect on my high school experience, what I will remember most are the grades or report cards, but the strong friendships I built and times of laughter. Particularly through tennis and the music program, I have made some of the greatest friends I will long remember. We have enjoyed the best of times basking before matches to get an update on the Phillies, singing Chamber Singer's songs in Music Theory class, and checking at the energetic gobbles of the morning announcements. Too quickly our time at West has come to an end, but the memories and friendships we made will always stay in our hearts. Congratulations to the Class of 2009, and best of luck!

Cameron Rotblat

In the words of the great rock band Led Zeppelin: Good times, bad times, you know I've had my share. These lyrics best describe my experience at West. Work and play, responsibilities and freedoms, bonuses and goofiness, High School was about finding and then keeping a balance. Whenever the scales got too far to one side or the other, friends and teachers were there to help find equilibrium. Four years, each was significantly different from the others, each was full of personal growth. During our time in High School we witnessed positive changes in ourselves and our world. Thank you to those who made my time at West what it was, quite memorable. Best of luck to everyone and may you enjoy whatever you pursue.

Daniel Noar

Every day, there is an immeasurable amount of directions in which each person's life might go. From the day we are born until the day we die, the number of paths that each one of us might take or might be forced to take by circumstances beyond our control is greater than anyone could imagine. The single path that each one of us has ended up walking so far defines who and what we are today. And by whatever chance, I am one of many who ended up attending Cherry Hill High School West. Though I don't believe in fate, I am thankful that I have attended this school, for I could not imagine my life without the impact that West has had on it. Whether it is experiencing my biggest triumphs or my biggest failures, whether it is meeting my best friends or my greatest rivals (who sometimes turn out to be one and the same), or whether it is learning the most important lessons in life through what appear to be the most trivial experiences, I know that none of it would be possible if not for West. Though I didn't choose it, this school is a path that I am proud to tread, and I know that I will continue to look back on my four years here and think of how my time here has shaped my life, and be thankful for it.

Elizabeth Schopfer

These past four years at West have truly been a wonderful experience. Not only have we learned study skills and time management but, more importantly, we have learned how to support and encourage each other. We have learned to be young men and women of integrity in the classroom, on the field (or tennis court), and in our daily relationships. The values that we have established for ourselves in high school will continue to govern our actions and, therefore, our lives, as we progress to college and the workplace. Ten years from now we will probably not remember all of the details of what we have studied, although some information, such as the Vietnamese sign language, will most likely stay with us forever, but we will remember the friends we made. It has been a joy to work with all of you, and I look forward to hearing in the future about the great things students of West have accomplished. Just as Paul wrote to the church in Thessalonica, I pray for all of you that, The Lord of peace Himself give you His peace at all times and in every situation. The Lord be with you all as you and I begin the next chapter of our lives.

Stephanie Thomas

Over the past four years at West I have had the most challenging and the most exciting experiences of my life. I am sure much of our class can say the same thing. We have learned, grown, and changed during our time at West. We made it through all the tests and homework and took advantage of our many opportunities. The friends we have made, classes we had, activities we participated in, and experiences we had will all be memories that travel with us throughout our lives. Congratulations and good luck to the class of 2009!

It seems like just yesterday we were reading "Good Night Moon" and "The Hungry Caterpillar" together. Now our little girl has morphed into a beautiful and sweet young lady. We are so proud of you and your accomplishments. Your beautiful voice rang clear with CHW's chorus and Trinity's choir. You showed your caring side with your mission work: 5 weeks rebuilding homes in depressed areas of the n.e. and your participation in the 30 Hour Famine, to raise awareness and money for the world's hungry. As you prepare to fly into a new life of college and community service, know that your family loves you so much. We are proud of you. We know you will continue to change the world.

Brianna Nicole Ehmann

Brianna,

Looking back over the years and seeing how you have grown and matured into the beautiful woman you are today, almost makes it hard to ever imagine you as our "little pumpkin". But you were...so full of life and eager to explore. Even as a child you seemed to have a knack for knowing exactly where you were going, and then setting a course to get there. Keep that drive and determination alive and great things will come to you. You have a heart bigger than most could imagine, and a sense of compassion not often seen in today's youth. Never change who you are. Never compromise your values and what you hold dear. Never stop putting others first, and above all, never stop being you.

Good Luck with everything that lies ahead!

Love always, Mom, Dad.
