THE BRIDGE

While I was wandering through the wood,
A bridge appeared before my feet.
My journey's goal not understood,
In ignorance the path I beat;
   But I continued walking.

Slowly climbing toward the top,
My dark eyes taking in the view,
Then and there I dared not stop,
But towards the apex still I drew,
   And I continued walking.

Strange signs in the stream appeared
Of old dreams and discoveries new,
Bright images that blurred and cleared,
And then at once I found I knew
   That this is part of walking.

Toward the stone-set bridge's end,
My journey's goal now understood,
With firmer step I will descend
And leave behind the dim green wood,
   As I continue walking.
My journey's goal not understood.
But I continued walking.
Slowly climbing toward the top
of old dreams
and discoveries new.
That this is part of walking.
My journey's goal now understood.
Dedication

Mrs. Schmidt, with appreciation for your guidance, understanding and spirit, we dedicate the 1980 RAMPANT to you. But we feel that it must be more than just a dedication, for when we pause and consider the past four years, we realize that the memories which fill this book would have been impossible without your constant support and faith in us.

You have always been there, standing beside us, your patience, humor and devotion lifting our spirits and encouraging us to excel. We have grown together, as time now dictates that we grow apart, and so, accept RAMPANT as a last token of our esteem and appreciation.
Dr. Jonas C. Morris was not just a loyal friend of C.H.H.S.W., he was the heart of the Class of 1980. From the time we entered this school as freshmen, Dr. Morris, was there, pushing us, encouraging us, loving us. We were “his kids” and he knew and cared about us as a class and as individuals.

Dr. Morris gave to our class the most precious thing he had, time. He gave us four years as a member of the C.H. Board of Education, always striving to make things better for us. But of even greater importance to the students, were the innumerable hours he spent in the halls of our school. He was always around-talking to kids in the hall, playing chess with the club members or reading the newspaper in the library. And then there were the concerts, the sports events, and the shows that Dr. Morris and his wife, Zelda, never missed. He was always there, cheering us on, as proud of our accomplishments as the proudest of parents.

Now our dearest friend is gone and we will miss him greatly. But we were lucky; we had four years of support and encouragement from this inspiring man. Even now he has not really left us. We too are going away from these familiar scenes, but his memory is going with us.
TO PAT CARLUCCI’S SON

Dear Pat,

He has left us now
at this time of the spring rains
with a darkness overhead
so like the darkness felt within
as we mourn him, your father, our friend.
We must believe this, Pat,
behind those awful clouds
the sun is shining brightly
and will shine again for you and us.
There are other young things, like you,
struggling for roots
in this cold, damp season
when it has rained too much.
Soon you will feel the summer sun
and you will plan and hope and dream
and you will believe with a great faith
that your father is your “sun”
to light and warm your path.
Draw from his love for you
your strength
and you will make your mark
and blaze your trails.
Until, finally — and he will know —
you have become
the man he always wanted you to be.

One of your father’s teachers,
Paul Genovesi

During your four years of high school you have lived at the leading edge of the winds of change in education. Many have lamented that today’s youth are ill-prepared to face the challenges of tomorrow. I do not share this view. You have made great strides in preparing yourselves to make those important decisions that will effect your future lives. Do not become discouraged with diversity; be willing to step back and pause for another view. There are no ready answers to complicated problems, but with patience and understanding solutions may be found.

It is only through the efforts of individuals that we can improve the nature of things. Continue your pursuit of excellence both within your personal lives and your relations with others. Dream your dreams, but have the courage to act upon them. Remember, to do is not always enough. To do what is right is the ultimate challenge.

Sailing.
He began a trip around the world,
Floating on the waves,
Moving with the wind,
Always sailing.
On the boat he lived,
Studying the scenes,
Surviving the storms,
Moving along with time,
Yet always sailing.
And soon
He was back to the point from where
He had begun,
To begin his journey again.
Perhaps it would become
A reflection of his memories.
But this time
He could depend on more than the breezes
To propel him forward.
Light:
A wave of energy,
Quanta in a flowing direction
Unaffected by air currents,
Pencil-thin and horizon-broad,
Reflecting off of mirrored surfaces,
Refraacted by the obstacles it encounters,
Creating shadows of curious dimensions,
Wafting into corners of obscure alleys.

Light:
It brings us color in various spectra,
Catches on diamonds in the morning grass,
Moves mountains into mirages, desert into placid pools,
And holds dust particles suspended in its path.

Physics:
The illumination of natural secrets,
The revelation of formulae,
The understanding of physical phenomena;
Light.
The biologist - a modern day pioneer
Belonging to the ranks of Magellan and Columbus,
His search takes him to no far off continent,
But to realms equally mysterious,
Those within all living things.
The microscope serves as his vessel to chase the
Unknown.

Whether winding through the endoplasmic reticulum,
Navigating the vena cava,
Or traversing the xylem,
The biologist sees the wonders most will never
Know or dream of.
A modern day explorer with a noble purpose
To preserve life and decipher its code.

The race has begun—a surge of vitality, potential for a powerful performance; he strives to surpass others . . . and himself.

The race progresses—obstacles appear; at first mastered with comrades, later the inevitable climb . . . alone.

Nearing the end—burdened by fatigue, yet aided by experience; triumph is envisioned, the mind loses sense of time . . . and finally

The race is over—a worthy accomplishment, VICTORY ... but also

The runner has triumphed beyond all meaning of time, potential reached. The purpose of life achieved.

102 Boys' Gymnastics
With devotion unshattered,
With the will to endure,
What by all surely is dreaded
to the gymnast is pure.

For the limits that pain and weakness impose
are surpassed at all moments by the Gymnast, who
knows
That his mind and his body must mesh, as though
one;
For this kind of spirit cannot be undone.

Extremes of the body, extremes of the mind
are gradually tempered by the gymnast, resigned
to accept in his soul what most never find,
this keen sense of purpose, with which glory is
lined.

Up toward the evening sky,
A breath I drew, smelled morning dew,
To first base I did fly.
When second bound, I looked around

You've decided to pursue
SOFTBALL,
That enjoyable game.
As the bat hits
The ball,
Your heart beats faster.
Directing your feet
To that point
Where your eyes have been.
Then with one swift motion,
The ball becomes the pursuer.
But you're safe.
Once again, the thud of the bat,
The long arc of the ball,
The heart-stopping moment.
Relief comes
Only after the game.
You relive that victory, in your mind,
But that excitement, that spirit,
Can never quite
Be recaptured.
The first sport every played,
its rules set by the gods.
True test of human form
Surviving centuries.

The athletes meet their match.
a javelin to throw,
a discus to propel,
a pair of legs to move.

Following tradition,
All the ancient glory
Of disciplining muscle
In the task of triumph.

Lacrosse

One little, two little Indians, three,
Not Shawnee, Sioux or Cherokee,
But Lions cradling expertly,

Up and down the field they fly
With their crosses raised up high
On the warpath; hear their cry.

The ball sent whizzing through the air,
They wield the crosse beyond compare;
No distant tribes outmatch their dare.

Student Government says that Lions rule,
And West side people are pretty cool.
We have got the utmost spirit,
And from us you'll always hear it.
We really try to provide the fun
And slave a lot to get things done.
Painting signs and decorating
Can truly be exasperating.
We organize each school event
And try to spark excitement.
If here and there we have our critics,
You all know that they're just cynics.
We love our school and try to show it.
So that everybody else will know it.
Every day and every way we try our best
To make life more enjoyable for the kids at West.

We transform the ordinary to the fantastic;
We create life in all its varied forms;
We transport people across the globe
and through time;
We are the people of the theater.
The set builder:
turning canvas and wood into a
palace.
The lighting director:
turning illumination into night or day.
The costumer:
turning ordinary rags into riches.
The make-up artist:
turning a boy of sixteen into a man of
sixty.
The actor:
turning himself into a gryphon or a
king.
As one, we carry out the theater's
purpose:
To entertain, to teach, to reveal human
nature.
There is no magic dust hidden in the
wings;
The magic of the Theater is in its
people.

SENIORS
Hey! Kiddies!
It's the Mr. East show,
Mr. East comes town.
The start of 9th grade brought about new faces. What common ground could we unite upon?
And yet we soon were forming close attachments Arising from our mutual pursuits.
The obstacles combated as a team, The heartbreaks and the triumphs shared as one. And while the bridge of high school has been crossed, We have constructed new bridges of gold Between ourselves and friends we've made at West. They will not be roads leading to somewhere else; They are the destinations in themselves.
Marching off our buses
Wide-eyed, slightly wary,
We saw you there to greet us,
To start us on our journey.

Stormy seas were to be crossed.
This you warned us from the start,
Keeping spirits high when doubt
Seemed to steer our unsure heart.

You never let us forget when
We took those first steps into West.
You've shown us the long way we've come
And how we've measured to the test.

You told us that our journey soon would end;
The bridge was not as long as we had thought;
And yet we know that we have been transformed;
You've led us to that thing which we most sought-
Maturity.
Thank you, Mr. Jordan.

Mr. Jordan- House Principal
Recess.
Memories of the past.
Grown-up children pretending, questioning the world.
Remembrances of
Kindergarten classes, fairy tales, gold stars,
A brightly illuminated part of your YOUTH,
Security blankets . . .
Toys clutched tightly by small sticky fingers.

Career bound.
Dreams of the future.
Newborn adults shedding newly formed tears.
Remembrances of
Cherry Hill High School West,
A brightly illuminated part of our BECOMING,
Memories . . .
Hopes clutches tightly by trembling hands.

Order of the Lion
Who are these students, diligent, trying,
Who have been granted "Order of the Lion"?
The three to whom the others often look
To answer their questions, borrow a book?
Do they only use words like "satirize"
Or "matriculate" and "desynthesize"?
Contemplate nothingness, study all day?
Debate the value of incentive pay?
They are not elite, nor different, not strange,
Not parted from life by knowledge they've gained.
They are those who have sought truth in learning
To become diligent and discerning.

National Honor Society

The National Honor Society represents the highest aspirations of high school students for excellence in scholastic achievement.

In the everyday pursuit of knowledge we learn that the real reward for achievement resides in the knowledge itself.

The teacher challenges our ability to reach the high goals set for acceptance in the National Honor Society.

Our parents encourage us in every way to do well.

Ultimately the choice to go the extra mile belongs to the student — The National Honor Society is a great reward for the effort.

Mr. Mello, Senior Class Advisor

Before we ascend into a new dimension of our lives,
We would like to extend
A special thank you
To someone who has guided us
Through three memorable years—Mr. Ed Mello.
His confidence and faith in us

Have helped us through many a trying time.
Throughout these years
He has helped us
To grow and understand the world around us.
For all the experiences we’ve shared together —
Proms, concessions, meetings, trips and sales —
We’d just like to say . . . . Thank you.
Your office is small, not seemingly very welcome. Yet, there's always somebody in there with you, talking, asking for help or advice with a problem. They've heard the rumor too. If you have a problem, go to Mrs. Weiss, she'll help you. But that's no rumor. Your door is always open, welcoming anyone who needs help. Our class learned that from the class before us, they learned from the class before them and so the rumor continues to live from year to year. We'd just like to add a few words to this rumor for you to hear, Mrs. Weiss. Thank-you, for the time you've worked with us, helped us, taught us and worked for us. We not only appreciate it, we love you for it!

How long is life?
Seventy years perhaps, or seventeen?
And some are busy, bustling, full of plans,
Getting, achieving, climbing.
His were not.
A life turned somewhat inward, turned toward
Earth's animals that didn't talk and make demands,
And hands
That liked the feel of metal shaped and turned
And would work long and patiently
To make what he wanted made.
Not many noticed him when he was here.
That was all right; he really didn't mind.
But now he's not, and though the rest go on,
Somehow there is a loss.
How long is life?
—Donald R. Fletcher
As reflections,
Shadows of past dreams,
Drift across the pool
Of our minds,
Illuminations
Emerge,
Giving substance
Not only to our broken visions,
But to our
Future hopes.

You're my best friend it was great and remember we'll hit the big D scene in college.  

Life has countless ways of expressing itself but some of its most memorable are born in Friendship — Dimop. - How can I possibly sum up 4 years of Friendship, from swim parties to costume borrowing (and never returning!) to 4th period lunch. I'll always remember the Flying peas, sneaker stealing and a cramp, moving Volkswagen Cafeine. And now, on to the next phase. "Have you had it yert?" Time should have been up a long, long, time ago. P.S. Don't forget to send the tape, you're the one to start it.
Sklar - Have you learned how to read a map yet? Hope so. 12 minutes lost is a long time, next time we follow my directions rather than yours. Remember - the shortest way from E to D is up, not down.

Tiz - You seemed to have calmed down and not been in a Tizzy since French - or did Dinps and I make you that way? Coz - To the only person in school who could pass for my twin! Well, at the very least a cousin. We go back a long time, all the way to 2nd grade. Stay as happy and friendly as you are now.

Sivan - First my tutor, (receiving A's) then my director (2 firsts, not bad) and now my editor (will we ever get it done?) but always a friend, one that I could count on. To think, Freshman English created a Friendship like ours (I won't mention the test I tied with you for top of the class). Now we're Seniors and our friendship is as strong as ever, just a little quieter. I'm always there and we needn't worry about walking up streets. Speaking of streets, I hope by now you can find your way as far as Lee Ann - NOT - the Swim Club. We've shared a lot of hopes and misery (I won't mention whom) but we always managed to have fun. Let's never lose our friendship. P.S. - I'll meet you in Paris in 5 years.

Lisa - We did finish it through 2 certain classes (I don't need to mention which ones.) Why is it we really only talked during parties (instead of mingling). Now that you're going away, what am I going to do without whitesies. Thanx for all the lift, someday I'll be able to repay you.

Barb - God, how the years have flown by, but with a friendship like ours how could it do otherwise. The years have been filled with both joy and sorrow but I think you know you always have someone to turn to that cared. P.S. - Just a few words of advice - never go more than 45 in a 25 zone, when you know who, is around.

Mart - We survived, thru tests and papers and PLAYS (if I never do one it will be too soon.) Florida has come and gone but the memories will last forever. Thanx for all the fun and help you gave me. P.S. - I'm glad one test in particular is over - now at least its legal.

Joy - Our friendship has meant alot to me. Often times I didn't think I'd make it, but you were always around to give a helping hand. Many classes (you know which ones) were at least bearable with you to talk to. Through 4 years, and numerous arguments we've stayed friends and I hope we can always remain as close as we are today. Memories of highschool may fade and become dim but you'll never forget. P.S. Je encore dir l'argument etait ta faute et essaye appareindre ta gauche par ta droite. Thanks for making this section possible.

Love, Stacy

Anna, I leave the halls of West to you - take them by storm. Always remember "put it in the pouchy", biggest to littlest, and "non pue," I look forward to all the new memories we'll share. My thoughts for the day: We'll always be sisters - I LOVE YOU dearly, your bella guatarella Patree. Corny Von. Thanks for always being there to listen. I hope you know I'll always be here. I hope things with C.B. go the way you want them to! May gibberish keep us close, all my love Poon.

Betsy (fect), That week at camp will always be special to me - I'm glad you cared, I always will. I hope that "PER and FECT" will be a team forever. I always be here if you need a friend - Poon.

Viv (Mams), What can I say, ours is a unique friendship - its survived everything and therefore will last forever. I'll always be there for you, cause you've been there for me many times. Thanks for your friendship and understanding, love always Patty.

Mr. Tincini, I'll always respect your iron hand and value the friendship and wisdom it provided me. Thank you for caring, all my love Patty (alias Lucy).

Holden, I made it! Thank you for all you've given me. I want you to know I believe in you and always will! I love you and always will - just as I'll treasure our memories always - Kate.

Zuck, You made 5th, 6th and 8th bearable. I'll always remember the "debate scandal," and "laughing at funerals." Let's stay friends, Poo.

Sommers, Thank you for everything, we've gone from "Bud & Wil" to stuffed animals to good friends. I hope we'll remain pals, stay close, Pat. To all of the above and C.H.H.S.W. I say, Thank you for helping me grow and making my years at West happy ones. God Bless you all!

Dear friends:
We made it through high school! It seems sad now doesn't it? Good luck to you all in college and future endeavors. Anne: no more poison chicken, sick baby jokes, or pea fights in the cafeteria! (that's disgusting). Remember whitesies rule. Amy: Goodbye, good luck, and WAVE TO CAMDEN. Joella: try to control yourself around those peas, bet you'll never forgotten old 4th period lunch. STACEY: I want to congratulate you, you actually survived lunch and me. That's a miracle within itself. And you made it through English. I bet this is your toughest year. P.S. Thanx for getting these printed for me. MARTA: All I thought was Mrs. Wills. Her work was funny, we're going to be in histrionics in college. LYNN: I hope they make you take 4 full years of gym in college. That'll teach you for deserting me to become a gymaid. CAREN: Still think it should be a "K". LOREN: do you think we'll have parties in college like we've had in Spanish classes and English? If we do I'll bet you can guess what I'll bake ... WHITIES. It's been a treasure to have you as my friend. We've had serious times and laughs together and I thank you. Catherine: Save you for last. How can one sum up 10 yrs? All I know is for these 10 yrs, you've been a true friend. When you're in college and bogged down with work, always remember our cooking endeavors. The sidesplitting histrionics and the two clowns standing there covered with the mixture. Someone should have taken pictures. Would someone covered in flour lie to someone covered in pink marshmallows? You know my mom still won't forgive us for the icing on her grapes. Catherine, thank you for being you! To the Christmas/Chanuka gang: Who's having it next year? Love, Lisa

Though dusty is the path of friendship
And marred by ignorance, so blind.
We've spanned these gaps with love and kinship
And truer friends I'll never find.
Dear Joe, the friend who makes me smile. The goals you wish you're sure to get. We'd often talk and laugh awhile. Those moments never I'll forget. To Eric, my friend, so true of heart. When you I think of this I see: A deep affection for thy art And also there, a part of me.

To Jocie, you hold so dear, That right now I can see your grin For you I'll always have an ear
And also for your rabbit pin.

To Lori, she whom I must trust
And who has not revealed me yet.
Do not let reason fall to lust
And also do not me forget.
Moll-do, our talks were so sublime
To "heights of rudeness" did they go.
We'd often lost all track of time.
But finally we'd think and grow.
To Jimmy, he who looks for good
And feels the warmth in everyone.
When first you smiled I understood—
Your warmth even outshines the sun
To Chuck and Fran, who are so wise,
Those rich in wisdom are not poor,
And from the twinkle in your eyes
To heights of wealth, I think you'll soar.

Memories 295
To Six, no more than 5 feet tall
Whose knowing smirk, I'll always dread
I used to think you're brain was all
But now I see your heart, instead.
To those of you who I forgot
My humble sorrow please accept
My mind is filled with dusty thoughts
Alas, perhaps I'll have it swept.

Routinely
The third step was taken,
Wandering blindly from class to class,
Perceiving not the halls
But ourselves:
Looking forward,
As we mapped out our futures,
Accepting challenges and taking on new responsibilities,
We grew taller and closer
And

Enthusiastically,
We took the fourth step,
Peeling through skies of maturity,
Absorbed in thoughts of
Tomorrow,
We included a taste of
Today,
Growing.
Yes we did.

Indoors
We sat,
Leaning back, reflecting on portions of ourselves.
And the thoughts we carried out in the air.
Time seemed to stop.
Yes we thought.
Looking over the past.
Memory.

Monotonously,
We passed, between yesterday
And tomorrow,
Hesitantly,
Turning from the future,
Looking back for a moment,
At the past.

Uncertain,
We took our first step,
The crowd sweeping us along,
Unfamiliar faces,
Passing quickly amidst the bustle and confusion,
And in the wide new halls
Rang loudness and laughter.
With awkward bodies and hearts too tender,
We smiled nervously.

Overconfidently
We took the second step,
Echoing faintly of senselessness.
Sterile faces
Reunited,
As hollow voices sent our peals of laughter.
We hid behind our masks,
Using sour wits and salty tongues
To disguise the bitterness inside.
