To the Members of the Class of 1981:

Congratulations on your graduation from Cherry Hill High School West. May you always remember your high school years fondly and with great pride.

As you depart from Cherry Hill High School West, you enter a new chapter in your lives. No one knows what the future will bring. You need to be careful to set goals which will lead in directions with which you will be comfortable. Realizing those goals requires dedication and hard work; however, failure to realize your goals brings frustration and hostility.

It is my most sincere hope that your years at Cherry Hill High School West will have effectively equipped you to establish and fulfill meaningful goals. It will not be easy. Economic instability, energy shortages and international tensions combine to produce an unpredictable world with which you must contend.

May you always find the inspiration and strength to forge ahead toward the realization of your goals despite the difficulties you encounter along the way.

Sincerely,

Bernard D. Shapiro

Read here this page —
The simplest and plainest canvas,
Simplicity itself in black and white —
And see it mirror him who reads it.

For, while cloaked in pure expression,
It conforms to every mind it meets,
Subtly changing tone and word
As if to accommodate a guest,
Appealing in a manner designed
For each one's rare experience.
Thus are of one page a hundred born,
Such varying offspring
The author might groan in his grave.
Still, that corpse would prefer
A disloyal page that would stir
Controversy in a reader's mind
To the purest words unexamined.

When we first begin our studies of mathematics we do not expect much of the department except some basic algebra and a little geometry. But over the years we begin to see that mathematics is more than an algebraic equation or a geometric theorem. It explores such college courses as calculus. To keep up with modern times the department even has a program on computers. Math classes are more than simply five credits. They are a foundation for all our future study in the higher education we pursue.

The Foreign Language Department is expanding beyond the horizons of the classroom to give language students at West a look into other cultures. Even within the regular curriculum, as much stress is placed on the culture and history of the land as on its language. Active clubs have been refounded in most of the languages, and an International Culture Club brings together all interested language students. Our generation of Americans, more than any other that has come before, cannot understand and trust other peoples of the world unless we know their speech and their ways.

Statement of Purpose:

To teach these artless, callow youths
Of all the glories of the past
And of its tragedy and scope
That crown our times from birth to last,
We men and women dedicate
Our knowledge of what yet could be,
Remembering that all that was
Is future tense in history.

Biology

34/Faculty
At Cherry Hill West the Biology Department curriculum keeps pace with exciting developments in biological fields. A molecular approach to biology in all courses from Biology I to the specialized second-year "pre-med" courses stresses the ever-increasing dependence of biology on chemistry. Students taking the accelerated offerings in Anatomy, Microbiology or Bio-Chemistry find they are well prepared for college courses in these fields, and often able to move immediately into more advanced work. Through videotapes and films, students catch glimpses of such new areas of biological research as genetic engineering. Contact with the real world outside of high school and an exceptionally strong and varied curriculum make biology one of the most fascinating departments to explore at West.

Stalemate
A chemist and a physicist
One day debated light,
The former insisted, "Electrons!"
The latter shouted, "Photons!"
Each sure that he was right.

The chemist tried to make his point
With Mendeleev and his table.
The physicist declared,
"What of E=mc²?"
Each argued the best he was able.

Said I to them, to their great dismay,
"How can you scowl and curse?
Yours is the key
For eternity
Of man and his whole universe."

Typewriters, xerox, pencils and pens, Erasers, clipboards, and notes from all ends;
Yes, the business field is what we desire;
Working in offices, we never tire.
Charts and diagrams to understand
For boss and client, who always demand
That work be quick, concise, and neat.
It keeps us excited and on our feet.
Advertising, marketing; the better the sale,
The higher we climb — on the salary scale.
I wanted to create, so they sent me down these hallways. Suddenly I became aware of my mind, my body and senses; I felt the slippery brown earth spin by my palms; I watched a captured moment gradually appear before my eyes upon a shiny wet canvas. My hand performed at my mind’s command, holding the instrument from which lines, shapes, and colors flowed to recreate an object of my wanting. Domestickities which once seemed trivial were now important; I could cook and sew and build and print, and I called it Beauty. I called it Art. I turned the corner and left perception and touch behind. I could now hear the masterpieces being created. The percussions beat with my heart. My soul vibrated with the magnitude of the music. My voice soared to mountainous heights. The harmony of twenty vocals melted into one. The dulcetude of it all overwhelmed me. They sent me down these hallways, because I wanted to create.

I sing of loneliness and solitude
Of wind and rain of mist and snow,
Of running over bare and tractless wastes
Pursuing some vague and ethereal goal
The mud of victors in my face.
I sing of blistering and stoney paths,
Of heaving ribs and sweaty brow,
Of shoelace snapped and socks worn through,
From countless pounding heavy steps,
The thorny branches grasping at my feet.
But still I run and still I hope,
To finish first or else, ye gods
Hermes and Iris of the silver feet,
Just to finish.

Student Of The Year
Selected By The South
Jersey Business
Educators' Association

On Wednesday, March 11, 1981, VICTORIA YEARGER, senior at Cherry Hill High School West, received the South Jersey Business Educators' Association award for Student of the Year, 1981. In order to obtain this honor, Vicki had to submit a personal data sheet to a committee from West's Business Department and then the SJBEA Awards Committee. Her data sheet was evaluated with those of other students from the southern New Jersey counties on the basis of educational achievements, activities, work experience, business skills, and the general appearance of her personal data sheet. Vicki was presented with a $100 award and a silver charm at SJBEA's spring dinner. The Business Department is extremely proud of her accomplishments.
Still Our School Day Or Night
Swell rulers all, those purple people,
Illustrious elected folk,
Lords of all, no power feeble,
Leaders of the common volk.
Ye friends of thankful corpses filmed,
Arsonists of great renown,
Soon to leave the barnyard gilded,
Soon to doff the cap and gown.
Ere you leave - we from below
Salute the greatest S.A.O!

Energetic, enthusiastic, long-suffering. These words best describe the officers of our SAO. Planning for activities at West is challenging, but never overwhelming. Those who are involved find the process never-ending but never dull.

A Yearbook does not just happen!
What lies between these pages
Are the results of painstaking Labors of students and faculty.
Whose combined efforts share enough Interest in the school to stay
In a small office until way Past sundown, drinking endless cans
Of cola and deciding where to
Place the words you are now reading.

REACHING IN OUR SILVER YEAR
Days of excited and hurried preparation came to their fulfillment on October 17, 1980, when Vice-President Walter Mondale entered our Jones Gym. As the Vice-President was escorted in, the student body broke into a spontaneous burst of applause that brought a smile to his face. The crowd remained on its feet until Mondale began a short speech describing his goals for America and America's youth. Vice President Mondale responded to several students' questions with straight forward answers. The students saw a "politician" interested in their concerns. This opportunity to participate in American democracy was a fitting climax to West's twenty-five years student involvement in government.

On February 12-17, one hundred and sixty six seniors with twelve chaparones, mostly teachers from West, spent an unforgettable weekend in Disney World, Orlando Florida. This was the first trip of its kind with the Cherry Hill Board of Education sponsoring and approving the entire activity.

Beginning with a day at Sea World, we were thrilled and amazed by all of the attractions. The next two days were devoted entirely to Disney World. Starting at Nine O'clock in the morning, the students were free to visit all of the attraction and just - enjoy! Space Mountain was a favorite attraction, as was The Country Bear Jamboree and Pirates of the Carribean. Our last day was spent at Lake Buena Vista boating and shopping, followed by a dazzling roller disco party in the evening. After a final stop for souvenirs and citrus fruits for the folks back home. Indeed, it was a very tired but happy senior class that finally boarded the plane for home.

Along with a generally exhilarating feeling, there was a unique tone of oneness that existed among the teachers and students that could only have been achieved through a shared experience outside of the classroom. Our senior class trip to Disney World will be fondly remembered as a magical, fun filled time of learning.

Through twenty-five years of Cherry Hill history, the annual choice of Homecoming Queen has become a proud tradition. Yet as we enter a new era in West's history, even our oldest traditions change with the times. The four beautiful girls chosen as Homecoming finalists, Bonnie Woods, Debbie Van Slyke, Nina Keefe, and Lori Joyce, stood in anxious anticipation as the winner was announced. But, after Nina Keefe and Bonnie Woods were named runners up, the crowd roared its approval when Frederic Squires was proclaimed ruler of Homecoming Court for the Class of 1981.
Holiday Cheer

Holiday -
A time for giving,
A time for sharing.
Children-
They should be laughing;
They should be carefree.

And though sometimes
Things aren't
As they should be
At Christmas and Hannukah,
We give
And
We share
So that children can laugh
And be carefree.

260/Seniors
Freshmen year, yes we were told
that these four years will soon grow old.
Now as seniors, we do see
That so is true, we born in '63,
Senior year at dear 'ol West
has come so soon, but may be best.
For memories that we have seen some
so bright, they shine and gleam,
Purple and white this year, so strong
Spirit here was far from wrong.
This september brought such a blast
but seniors knew they wouldn't last,
Our Homecoming game this year was East,
Fred, our queen, feminine all the least,
The Grateful Dead and our Talent show,
Staying up, late into the night,
Typing the paper, of course, without fright,
Cutting classes for breakfast and lunch,
And knowing the teachers' haven't a hunch,
Reading the Rampant from dusk until noon,
Seeing the pictures taken last June,
Standing on line in the room in G-wing,
Oh, Mr. Jordan what day was that fling?
In Disney world we spent some time
just to return to our Lion Sign,
Spring was warm and the classes we'd reach
Just to leave easy and head for the beach,
The Hyatt House for our prom we went
In long gowns and the tux we'd rent.
Afterwards we had a big blast,
And into the Coastline, not carded at last,
Graduation has finally come,
For the class of '81,
The many friends that we shall part,
will stay with us, deep in our hearts.

Nous sommes les premiers.
Les premiers pour cette nouvelle expérience, pour notre lycée.
La bannière dit "WELCOME."
Notre amitié est pour toujours.
Le premier jour nous avions peur.
Le lendemain nous éprouvions l'amour.
Cela est notre voyage, un voyage d'amour.
Nous avons voyagé au bout du monde.
Mais nous étions au lycée.
Car nous représentions notre lycée.

We are the first.
The first for this new experience for our school.
The banner says "WELCOME."
Our friendship is forever.
The first day we were afraid.
The next day we felt love.
That is our trip, a trip of love.
We traveled to the end of the world,
but we were still in school.
For we represented our school.
