

Borrowing Books & Audiobooks

Once you find the title you want to borrow, simply tap the Borrow button underneath the cover of the book.

That's it.

It will now download to your device and you can use your Shelf menu to see the items that you have borrowed.

When you have the book open, simply tap the center of the screen to get additional options. You can change the letter size, skip pages or chapters, and customize what you see to what is best for you. Tap the screen again to make the menu disappear.

Libby by Overdrive

Learn how to download
library eBooks and
audiobooks anytime,
anywhere!

**CHERRY HILL
PUBLIC LIBRARY**
THE HEART OF TOWN

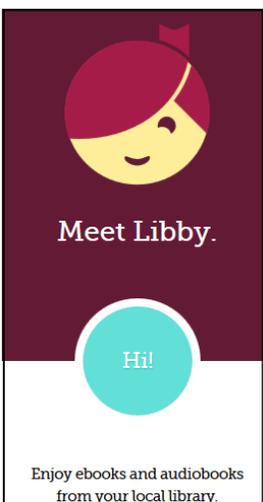

Meet Libby.

Libby by Overdrive is an app for your smartphone or tablet that makes using Overdrive simple.

First, you will need to download it from the Google PlayStore, Apple app store, or the Microsoft app store.

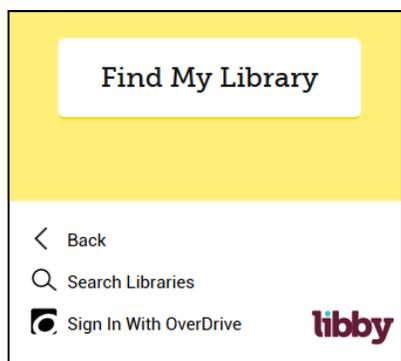

It's free!

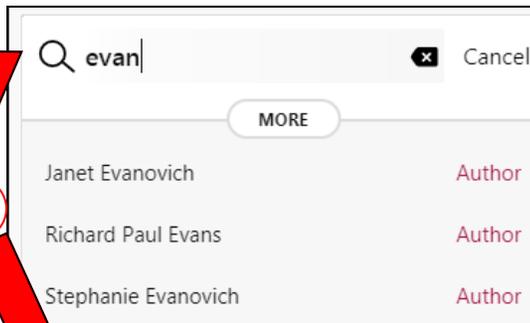

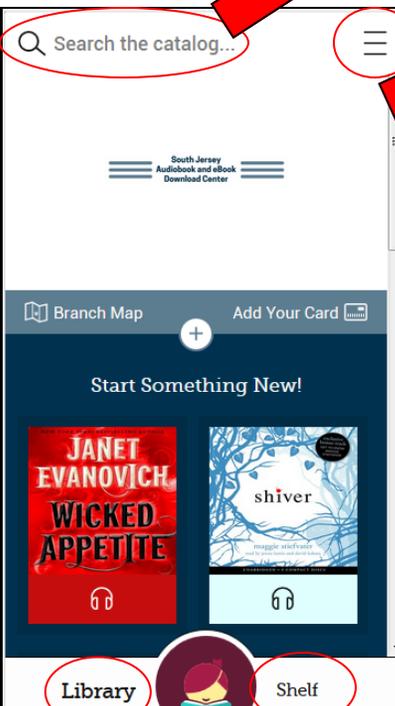

Once you have the app installed, here's how to get started.

You will need your library card number in order to log into the Overdrive system.

You can either search for Cherry Hill Public Library or let the app figure out your location.

You can search the catalog by name, title, or subject.

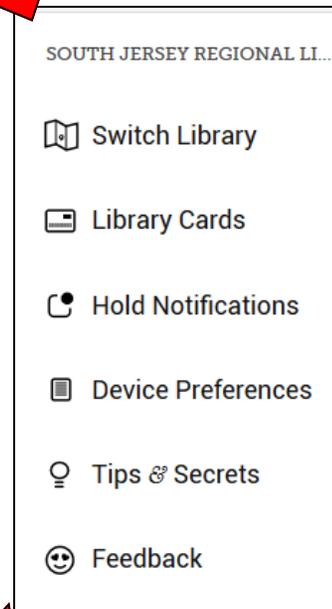

Not finding what you are looking for?

Please let us know so we can add it to the collection!

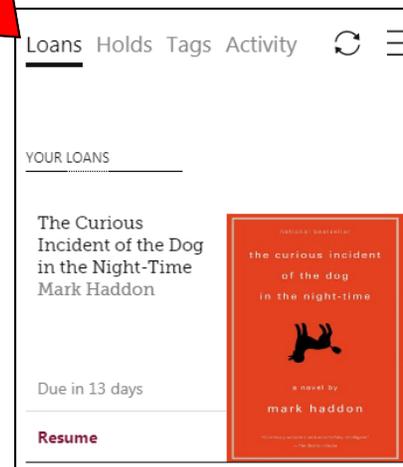

This menu lets you do a number of things:

- You can switch libraries (if you belong to more than one library)
- You can manage more than one library card as well
- Manage how you get hold notifications
- Set your device preferences (such as having audiobooks download to your phone while eBooks download to your tablet)

“Library” will bring you to the main page where you can scroll to see suggestions, what's hot right now, and what new items have been added to the collection.

(It is the page depicted in the image above.)

See what you have borrowed or on hold from the library by pressing “Shelf”

You can also see your history of books and audiobooks you have borrowed under “Activity”
