

Teen Space Procedures

The Cherry Hill Public Library's Teen Space is designed to meet the intellectual, educational, and recreational needs for patrons ages 12-18. This area offers a safe space for teens to study and socialize, and centralizes resources and information specifically for their age group.

All teens are expected to adhere to policies outlined in our [Patron Code of Conduct](#). Library staff reserve the right to ask patrons to stop any inappropriate behaviors or ask them to leave the library after being issued two warnings.

Other individuals are welcome to browse and retrieve materials from the Young Adult collections, but all computers and furniture are reserved for Teens to use. Patrons younger or older than 12-18 may be permitted to use the Teen Space when school is in session. However, during after-school hours, weekends, and days when schools are closed, adults and children may be asked by a staff member to vacate the Teen Space, unless they are accompanied by a teen.

Tutors are encouraged to use other appropriate spaces in the building to meet with students to ensure that the Teen Space tables and computers are primarily available for teens to study and socialize.
